ART UNIT PAPER NUMBER

3612

DATE MAILED: 07/20/2005

Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary	Application No.	Applicant(s)	
	10/826,764	DRY, ALAN GEORGE	
	Examiner	Art Unit	
	Lori L. Coletta	3612	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 16 April 2004.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-20 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 9, 10 and 18 is/are rejected.
- 7) ☒ Claim(s) 1-8, 11-17, 19 and 20 is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 16 April 2004 is/are: a) ☒ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- * See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-7 and 11-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Bollaender et al. US 2002/0008415.

Regarding claim 1, Bollaender et al. '415 discloses an interior trim component (10) for a vehicle, said trim component comprising a body (12); and an article holder (18) having a support structure (52) for supporting an article, said article holder pivotally connected to said body and moveable between a storage position and a deployed position, wherein in the deployed position said support structure of said article holder is higher relative to a position of said support structure when said article holder is in the storage position.

Regarding claim 2, Bollaender et al. '415 discloses the interior trim component, wherein said article holder is removably mounted to said body.

Regarding claim 3, Bollaender et al. '415 discloses the interior trim component, wherein said body is an interior vehicle trim panel.

Regarding claim 4, Bollaender et al. '415 discloses the interior trim component, wherein said body includes a forward end and a rearward end, and said article holder is pivotally connected adjacent said forward end of said body.

Art Unit: 3612

Regarding claim 5, Bollaender et al. '415 discloses the interior trim component, wherein said forward end of said body includes a recess, and wherein at least a portion of said article holder is disposed within said recess when said article holder is in the storage position.

Regarding claim 6, Bollaender et al. '415 discloses the interior trim component, wherein said body defines a vehicle console.

Regarding claim 7, Bollaender et al. '415 discloses the interior trim component, wherein said body includes a lid.

Regarding claim 11, Bollaender et al. '415 discloses the interior trim component, wherein in the deployed position said article holder is releasably connected to said lid, such that when said article holder is in the deployed position, movement of said lid causes said article holder to move.

Regarding claim 12, Bollaender et al. '415 discloses the interior trim component, wherein in the deployed position said support structure is forward relative to a position of said support structure when said article holder is in the storage position.

Regarding claim 13, Bollaender et al. '415 discloses the interior trim component, wherein said support structure includes a wall defining a cavity for supporting an article.

Regarding claim 14, Bollaender et al. '415 discloses the interior trim component, wherein said support structure is a clip for securing an article to said article holder.

Regarding claim 15, Bollaender et al. '415 discloses the interior trim component, wherein the clip is spring biased.

Art Unit: 3612

Regarding claim 16, Bollaender et al. '415 discloses the interior trim component, further including a latching mechanism (40) for releasably latching said article holder in the deployed position.

Regarding claim 17, Bollaender et al. '415 discloses the interior trim component, wherein said latching mechanism is disposed between said body and said article holder.

3. Claims 1, 2, 8, 19 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Anderson et al. 6,139,996.

Regarding claim 1, Anderson et al. '996 discloses an interior trim component for a vehicle, said trim component comprising a body; and an article holder having a support structure for supporting an article, said article holder pivotally connected to said body and moveable between a storage position and a deployed position, wherein in the deployed position said support structure of said article holder is higher relative to a position of said support structure when said article holder is in the storage position.

Regarding claim 2, Anderson et al. '996 discloses the interior trim component, wherein said article holder is removably mounted to said body.

Regarding claim 8, Anderson et al. '996 discloses the interior trim component, wherein said lid is pivotally connected to said body.

Regarding claim 19, Anderson et al. '996 discloses a console assembly for a vehicle, said console assembly comprising a console body having a lid, said lid pivotally connected to said console body; and an article holder having a support structure for supporting an article; wherein said article holder is pivotally connected to said console body and movable between a storage position and a deployed position; wherein in the deployed position of said support structure of

Art Unit: 3612

said article holder is higher to a position of said support structure when said article holder is in the storage position; and wherein in the deployed position said article holder is releasably connected to said lid, such that when said article holder is in the deployed position, movement of said lid causes said article holder to move.

Regarding claim 20, Anderson et al. '996 discloses the console assembly, wherein said article holder is removably mounted to said console body.

Allowable Subject Matter

4. Claims 9, 10 and 18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The cited references show several other interior trim components similar to that of the current invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lori L. Coletta whose telephone number is 571-272-6658. The examiner can normally be reached on Monday-Friday 7:30am-4:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Glenn Dayoan can be reached on 571-272-6659. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
